

# T R E A S U R Y S E R V I C E S

Transforming Treasuries.

## CONTROLS, PROCESSES & EFFICIENCY

An appetite for tighter & improved controls is required.

- Trade execution controls & documentation checks.
- Cash management controls.
- Hedging policy & controls.
- Operational process reviews & advice.
- Operational efficiency measures.

## PROJECTS

A treasury project has lost its way & needs to be brought back on track. Perhaps a new project requires managing.

- Cash management & forecast modeling.
- Treasury reporting.
- IFRS 9 conversion.
- Treasury / financial modelling.
- Global treasury development.
- Treasury function setup.

## AUDIT HEALTH CHECKS

A pre-audit treasury health check provides peace of mind & relieves additional pressure. Perhaps concerns exist with in a number of treasury operations.

- Treasury process documentation.
- Increase potency with regards to current treasury controls.
- Liaise with auditors to absorb additional work load & pressures.
- Implementation of auditor recommendations.

## REGULATION
